ABOUT US

GSO Engineering Company Leading in designing, manufacturing and manufacturing of fountain products and equipments, GCS has been operating since 2005 in the specialized field. With 20 years of experience and application of state-of-the-art engineering knowledge, our company offers high quality products in accordance with international standards and worldwide markets as per customer requirements..

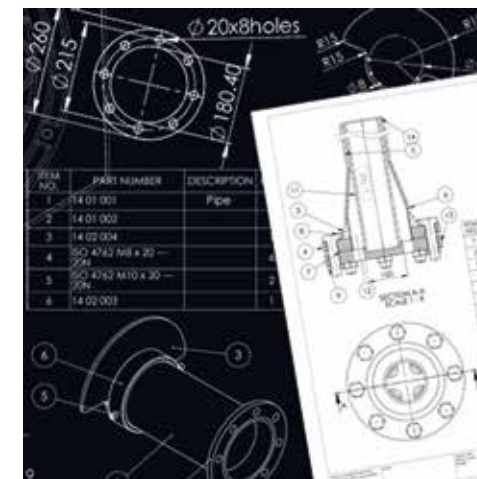

درباره ما

شرکت مهندسی GSO (جي اس او)، فعالیت خود را از سال ۱۳۸۴ به صورت تخصصی در زمینه طراحی، ساخت و تولید محصولات و تجهیزات آبنما، فضای آبی و نورپردازی آغاز نموده است. این شرکت با نزدیک به ۲۰ سال تجربه و استفاده از کادر متخصص شامل کارشناسان و طراحان حرفه ای با بهره گیری از هنر و معماری و استفاده از دانش مهندسی همگام با استانداردهای بین المللی، تکنولوژی روز و به کارگیری ماشین آلات پیشرفته، محصولات و خدمات جهت رضایت مشتریان داخلی و خارجی تولید و عرضه نموده است.

خدمات مشاوره و طراحی:

۱. ارائه ایده و طرح اولیه به همراه آلترناتیوهای مختلف
۲. تهیه انیمیشن انحصاری پروژه و تصاویر سه بعدی توسط نرم افزار مخصوص طراحی آبنما
۳. تهیه اسناد مناقصه و برآورد هزینه پروژه
۴. تهیه نقشه های فاز یک و دو عمرانی و تأسیسات (مکانیکی - برقی)
۵. نظارت بر اجرای صحیح پروژه و حفظ منافع کارفرما

مشاوره و طراحی آبنما

در سراسر دنیا، هر کدام از طراحان حرفه ای، روشی خاص برای خود، جهت طی کردن روند طراحی دارند، که این روش ممکن است در خصوص هر پروژه و هر موضوع جدید دستخوش تغییراتی شود. سالها تجربه کاری و درگیری با پروژه های مختلف، تجربیاتی را در زمینه های مختلف هنری و مهندسی در اختیار ما گذاشته است تا بتوانیم در امور مشاوره و طراحی آبنما راه های بسیار متنوع و مخصوص به خود داشته باشیم.

مراحل و روند طراحی و مشاوره آبنما در شرکت GSO

- ۱. تعریف و تشریح موضوع پروژه (شناخت خواسته های کارفرما)
- ۲. جمع آوری اطلاعات و شناخت سایت (زمین) پروژه
- ۳. شکل گیری کانسپت و ایده های طرح
- ۴. طراحی اولیه آبنما و کسب رضایت کارفرما برای کلیات طرح
- ۵. ترسیم، ارائه مدارک و نقشه (پلان، برش، نما، حجم سه بعدی)

UNDERSTANDING
EMPLOYER'S REQUEST

COLLECT INFORMATION
ABOUT THE PROJECT LAND

۱. تعریف و تشریح موضوع پروژه (شناخت خواسته های کارفرما)

- اولین مرحله از کار طراحی آبنما، کسب اطلاعات در خصوص خواسته های کارفرماست. قبل از هر چیزی طراح باید بداند کارفرما از فضای مورد نظر خود چه توقعاتی دارد؟! بنابراین سوالاتی که به وجود خواهد آمد این است که:
- مراجعه کنندگان فضا چه کسانی هستند؟
 - برای چه فضایی آبنما طراحی شود؟
 - خواسته های ویژه و سیاست های کارفرما کدامند؟
 - سرمایه مورد نظر برای ایجاد آبنما چه مقدار میباشد؟

۲. جمع آوری اطلاعات و شناخت سایت (زمین) پروژه

ابعاد، همسایگی ها، جهت گیری جغرافیایی، شرایط اقلیمی برای هر منطقه به خصوص جهت باد و یا بارندگی و دسترسی های آن، میزان عبور و مرور پیاده و سواره و شرایط کالبدی و یا فیزیکی، فرهنگی و اجتماعی محل وقوع پروژه مورد بررسی قرار میگیرد.

۳. شکل‌گیری کانسپت و ایده‌های طرح

با توجه به تجزیه و تحلیل لیست اطلاعات به دست آمده از هر بخش، سلیقه و نقطه نظرات کارفرما، طراح کانسپت اولیه (مفهوم کلی) طرح را ارائه می‌دهد.

۴. طراحی اولیه آبنما جهت کسب رضایت کارفرما در رابطه با کلیات طرح

پس از ارائه کانسپت، طراح متخصص مربوطه، تصویر ذهنی خود را با استفاده از نرم افزارهای حرفه‌ای همانند 3D MAX, CAD, Depence و نرم افزارهای تخصصی آبنما شبیه‌سازی کرده، انیمیشن حرکت آبنما را به کارفرما نشان خواهیم داد.

DEA
SIMULATION

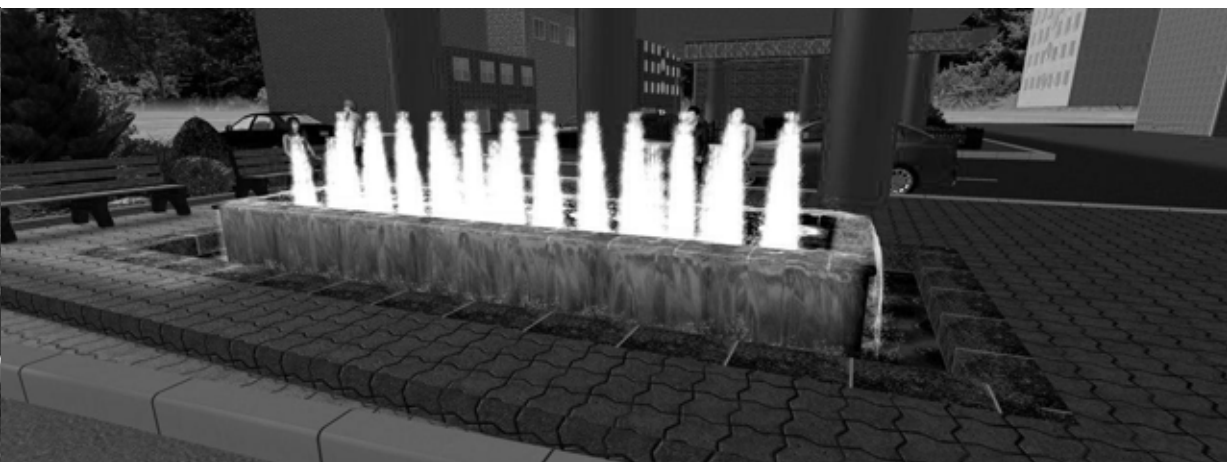

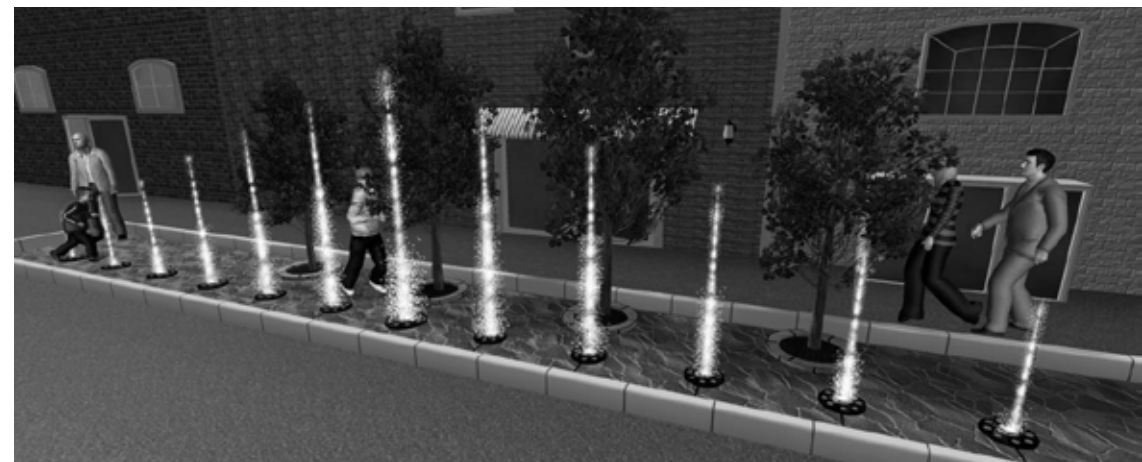

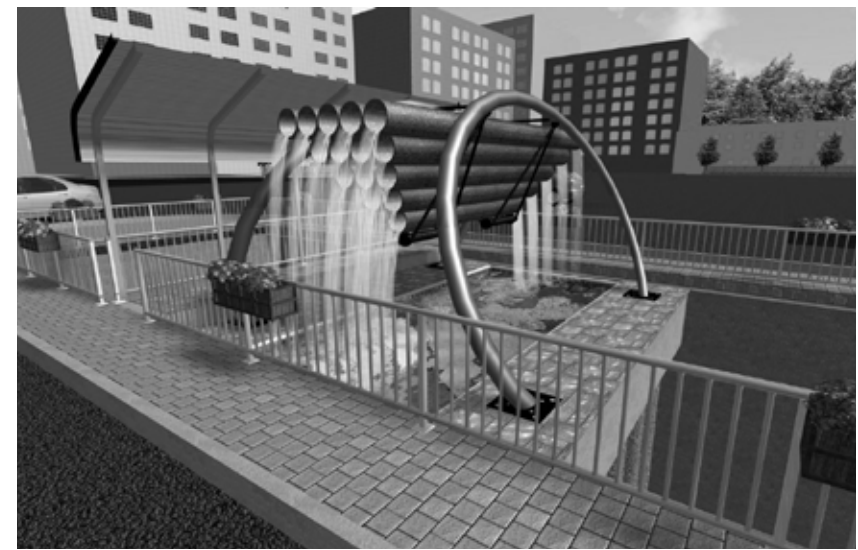

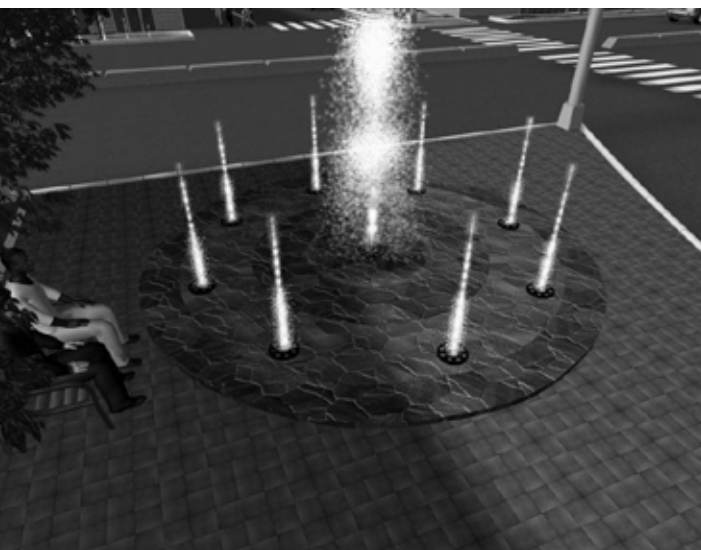

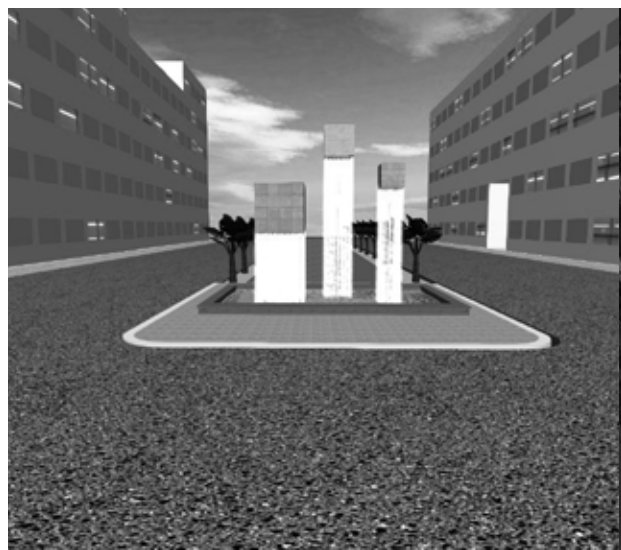

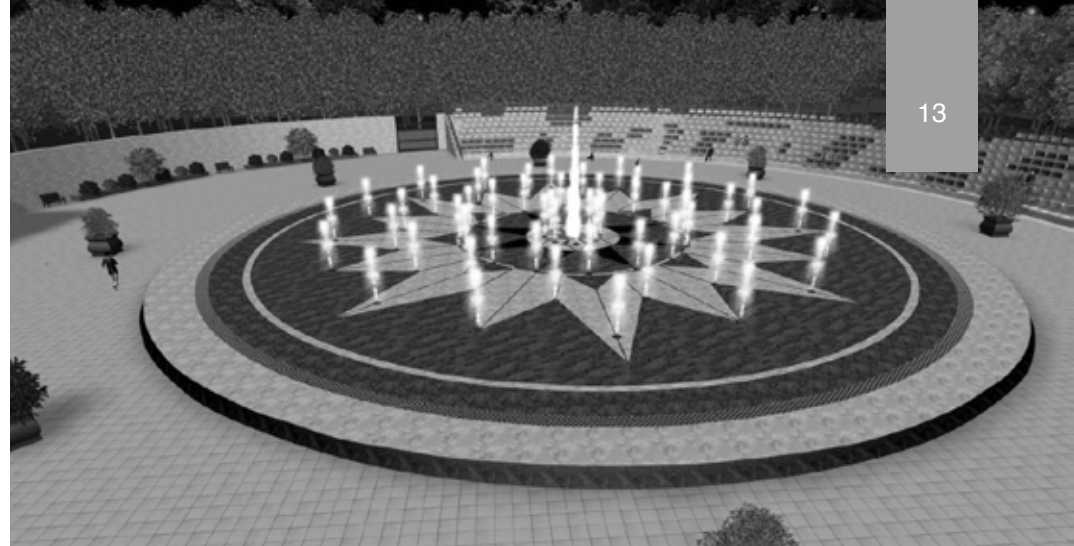

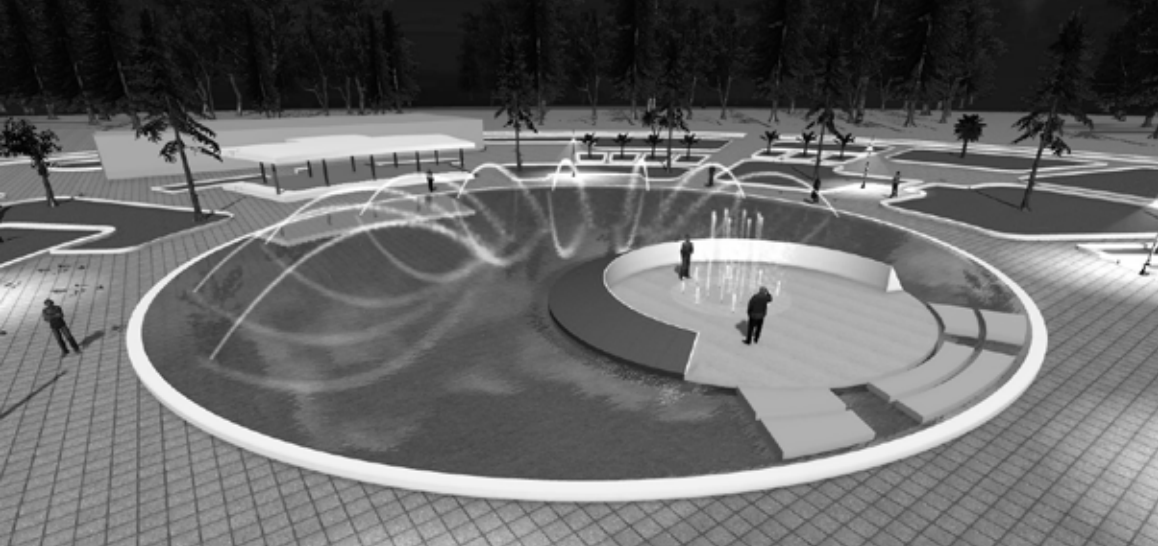

۵. طراحی حرفه‌ای آبنما

در سراسر دنیا طراحان حرفه‌ای هر کدام روش خاص خود، برای طی کردن روند طراحی دارند، که این روش ممکن است در خصوص هر پروژه و هر موضوع جدید دستخوش تغییراتی شود. سال‌ها تجربه کار و درگیری با پروژه‌های مختلف تجربیاتی را در اختیار ما گذاشته تا بتوانیم برای طراحی یک اثر، راه‌های متنوع و مخصوص به خود داشته باشیم.

PROFESSIONAL
FOUNTAIN DESIGN

Project Equipments:

Comet Nozzle

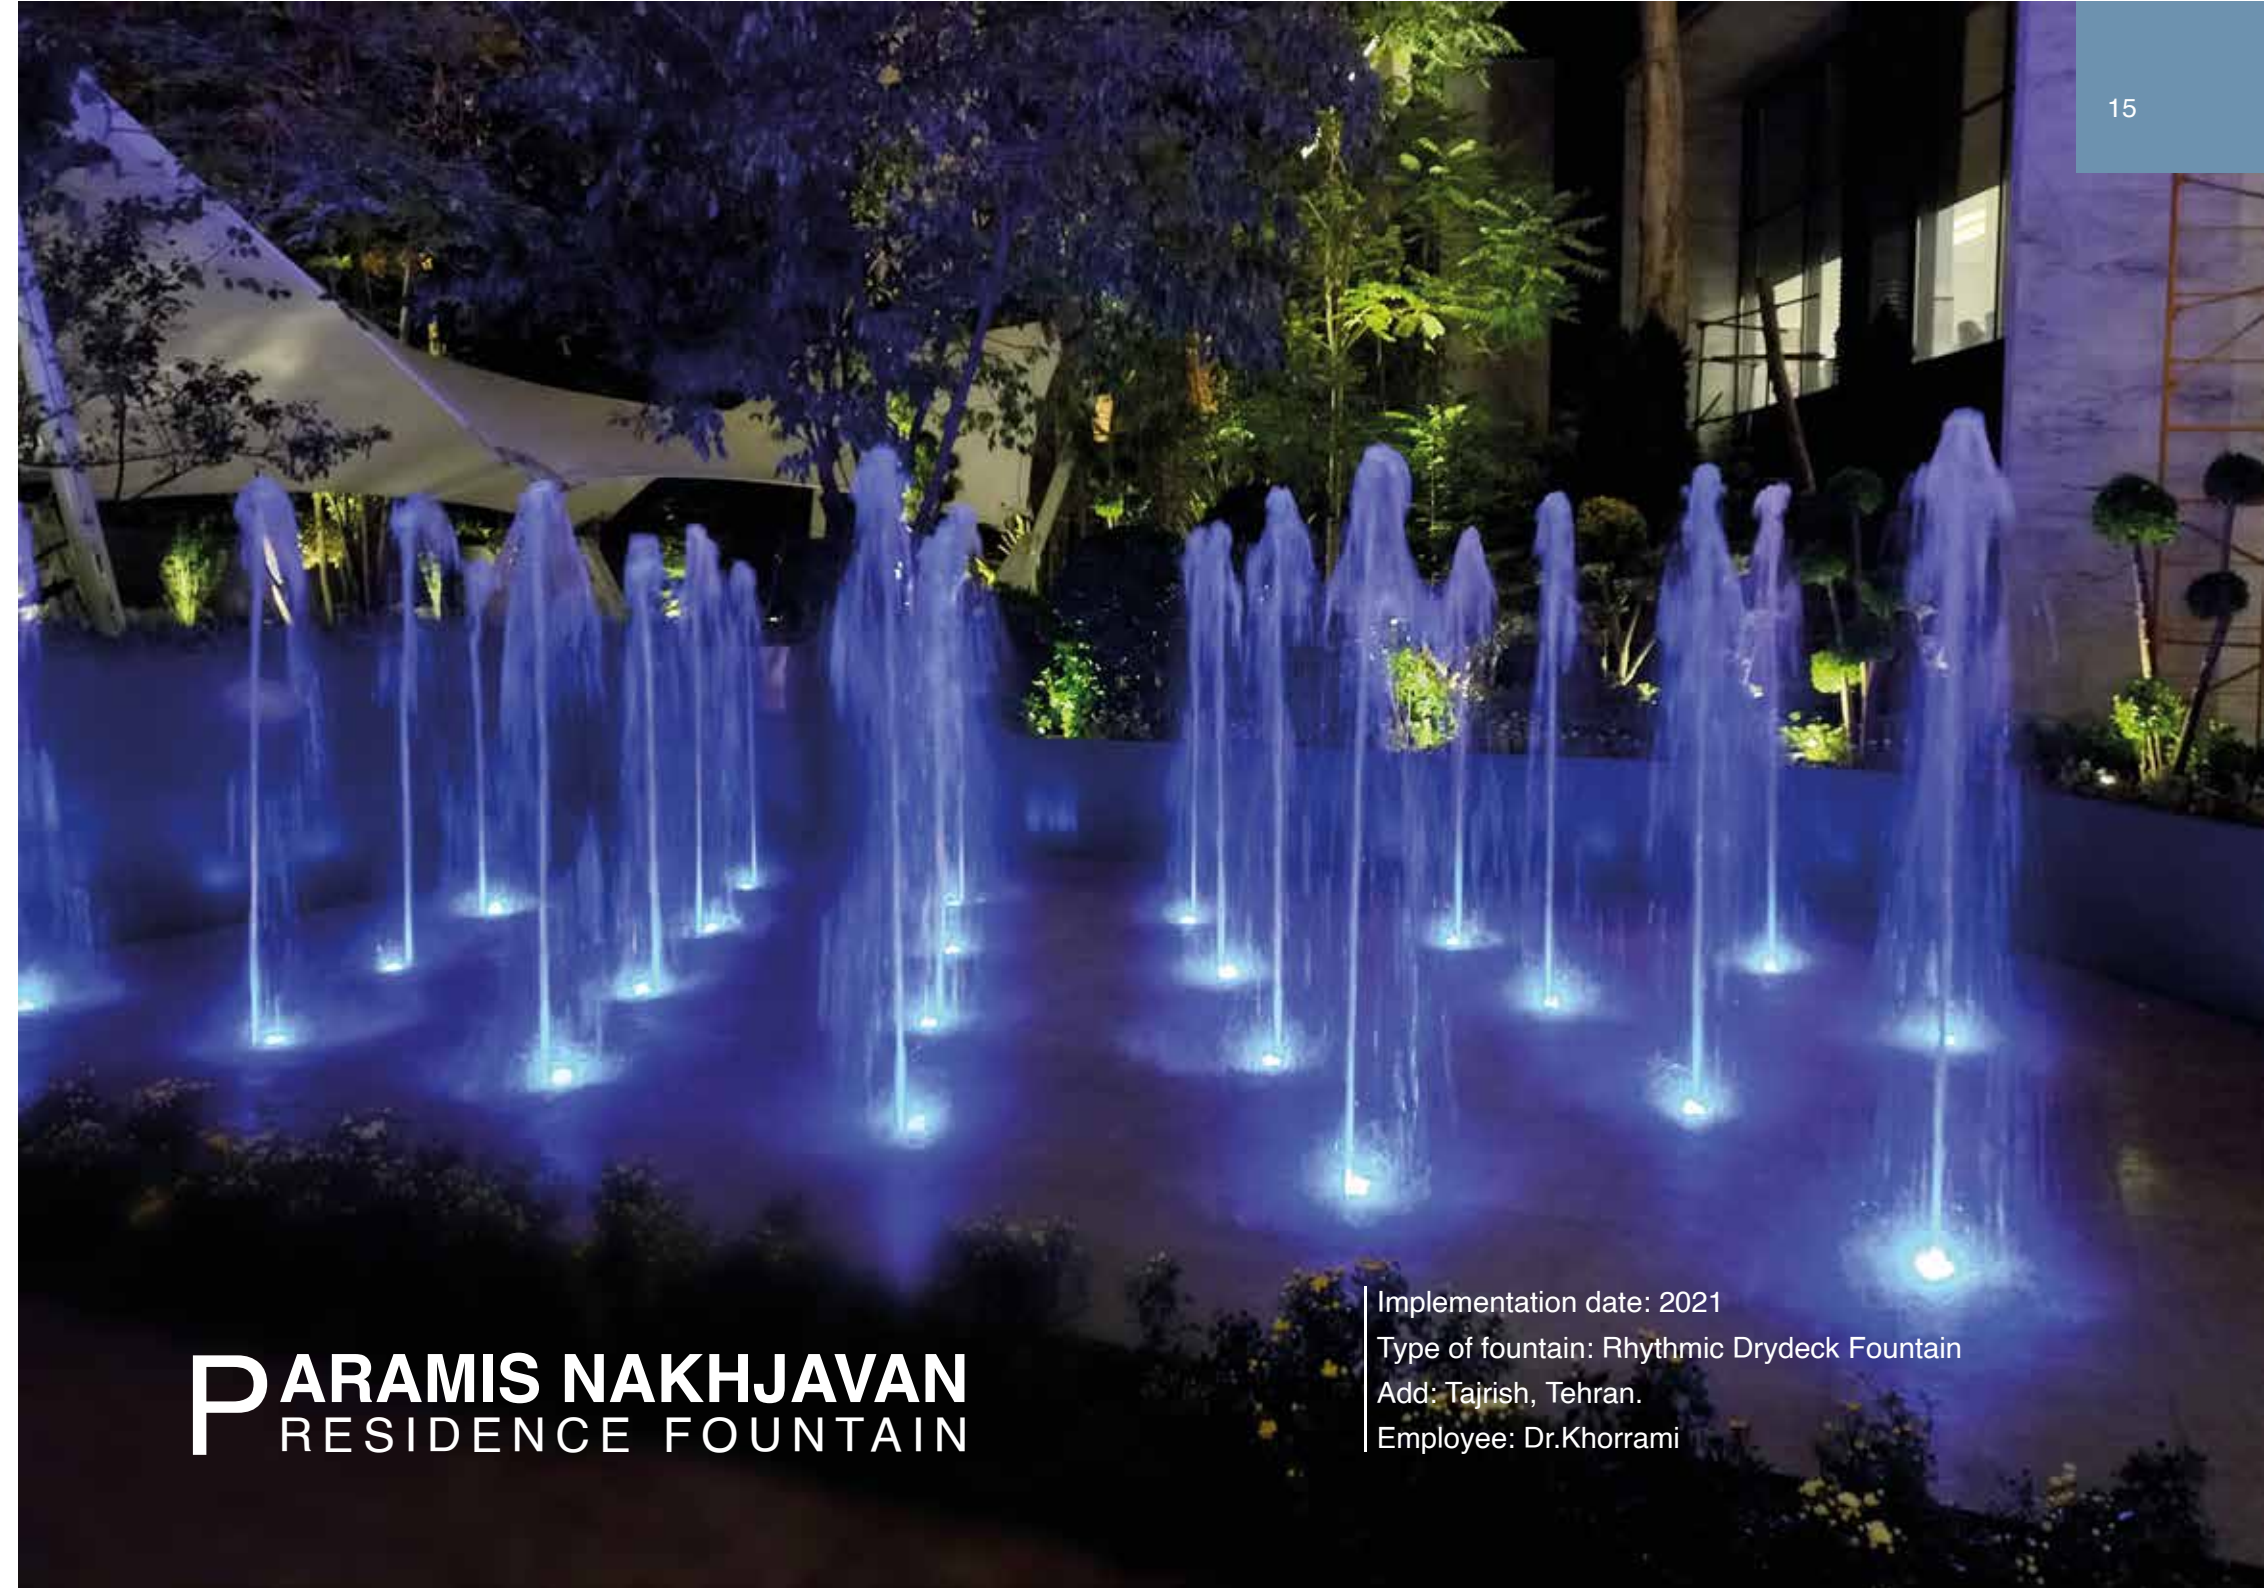

Dry Deck Chamber

MU512 Controller

Dry Pump

PARAMIS NAKHJAVAN RESIDENCE FOUNTAIN

Implementation date: 2021
Type of fountain: Rhythmic Drydeck Fountain
Add: Tajrish, Tehran.
Employee: Dr.Khorrami

Project Equipments:

High Jet Nozzle

VN1024 Controller

UFO Package

RSS Pump

OIL COMPANY CLUB
MAHMOUD ABAD

Implementation date: 2012
Type of fountain: UFO Musical Fountain
Add: Mahmood Abada, Mazandaran.
Employee: Oil Company Club

Project Equipments:

MU512 Controller

Drydeck Nozzle

RSS Pump

OIL COMPANY
CLUB QAITARYEH

Implementation date: 2016
Type of fountain: Drydeck Rhythmic Fountain
Add: Qaitaryeh, Tehran.
Employee: Oil Company Club

Project Equipments:

Cascade Nozzle

Comet Nozzle

MU12 Controller

Ring Fountain

Dry Pump

ANDISHEH MARKET ENTRANCE OF GRAND

Implementation date: 2012
Type of fountain: Classic Fountain
Add: Andisheh, Alborz.
Employee: Mr Kia Kooshk Company

Project Equipments:

Cascade Nozzle

Proclass LED

MU12 Controller

Ring Fountain

Dry Pump

**BAZZAR OF
GOLD DEALERS**

Implementation date: 2012
Type of fountain: Classic Fountain
Add: Andisheh, Alborz.
Employee: Kar Kia Kooshk Company

Project Equipments:

Comet Nozzle

High Jet Nozzle

VN1024 Controler

Proclass LED

RSS Pump

ANDISHEH IRANIAN
BIG BAZAAR

Implementation date: 2012
Type of fountain: Waltzing Musical Fountain
Add: Andisheh, Alborz.

TAJRISH PARK FOUNTAIN

Implementation date: 2022

Type of fountain: Rhythmic Fountain

Add: Tajrish, Tehran.

Employee: Lotus Company Manager

Project Equipments:

Comet Nozzle

Foam Nozzle

VN512 Controller

Ring Fountain

IMAM KHOMEINI SQUARE FOUNTAIN

Implementation date: 2023

Type of fountain: Rhythmic Fountain

Add: Baneh

Employee: Baneh Municipality

Project Equipments:

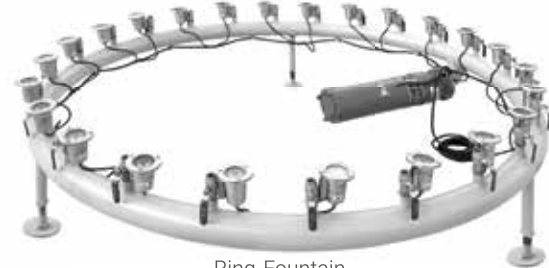

Comet Nozzle

Proclass LED

VN512 Controller

Ring Fountain

Dry Pump

DAMAS VILLA SETTLEMENT FOUNTAIN

Implementation date: 2023
Type of fountain: Musical Fountain
Add: Noshahr, Mazandaran.
Employee: Damas Villa Settlement Manager

Project Equipments:

Comet Nozzle

Dry Deck Chamber

MU512 Controller

Dry Pump

DAMAS VILLA SETTLEMENT FOUNTAIN

Implementation date: 2023
Type of fountain: Drydeck Fountain
Add: Noshahr, Mazandaran.
Employee: Damas Villa Settlement Manager

Project Equipments:

Neyriz Nozzle SA

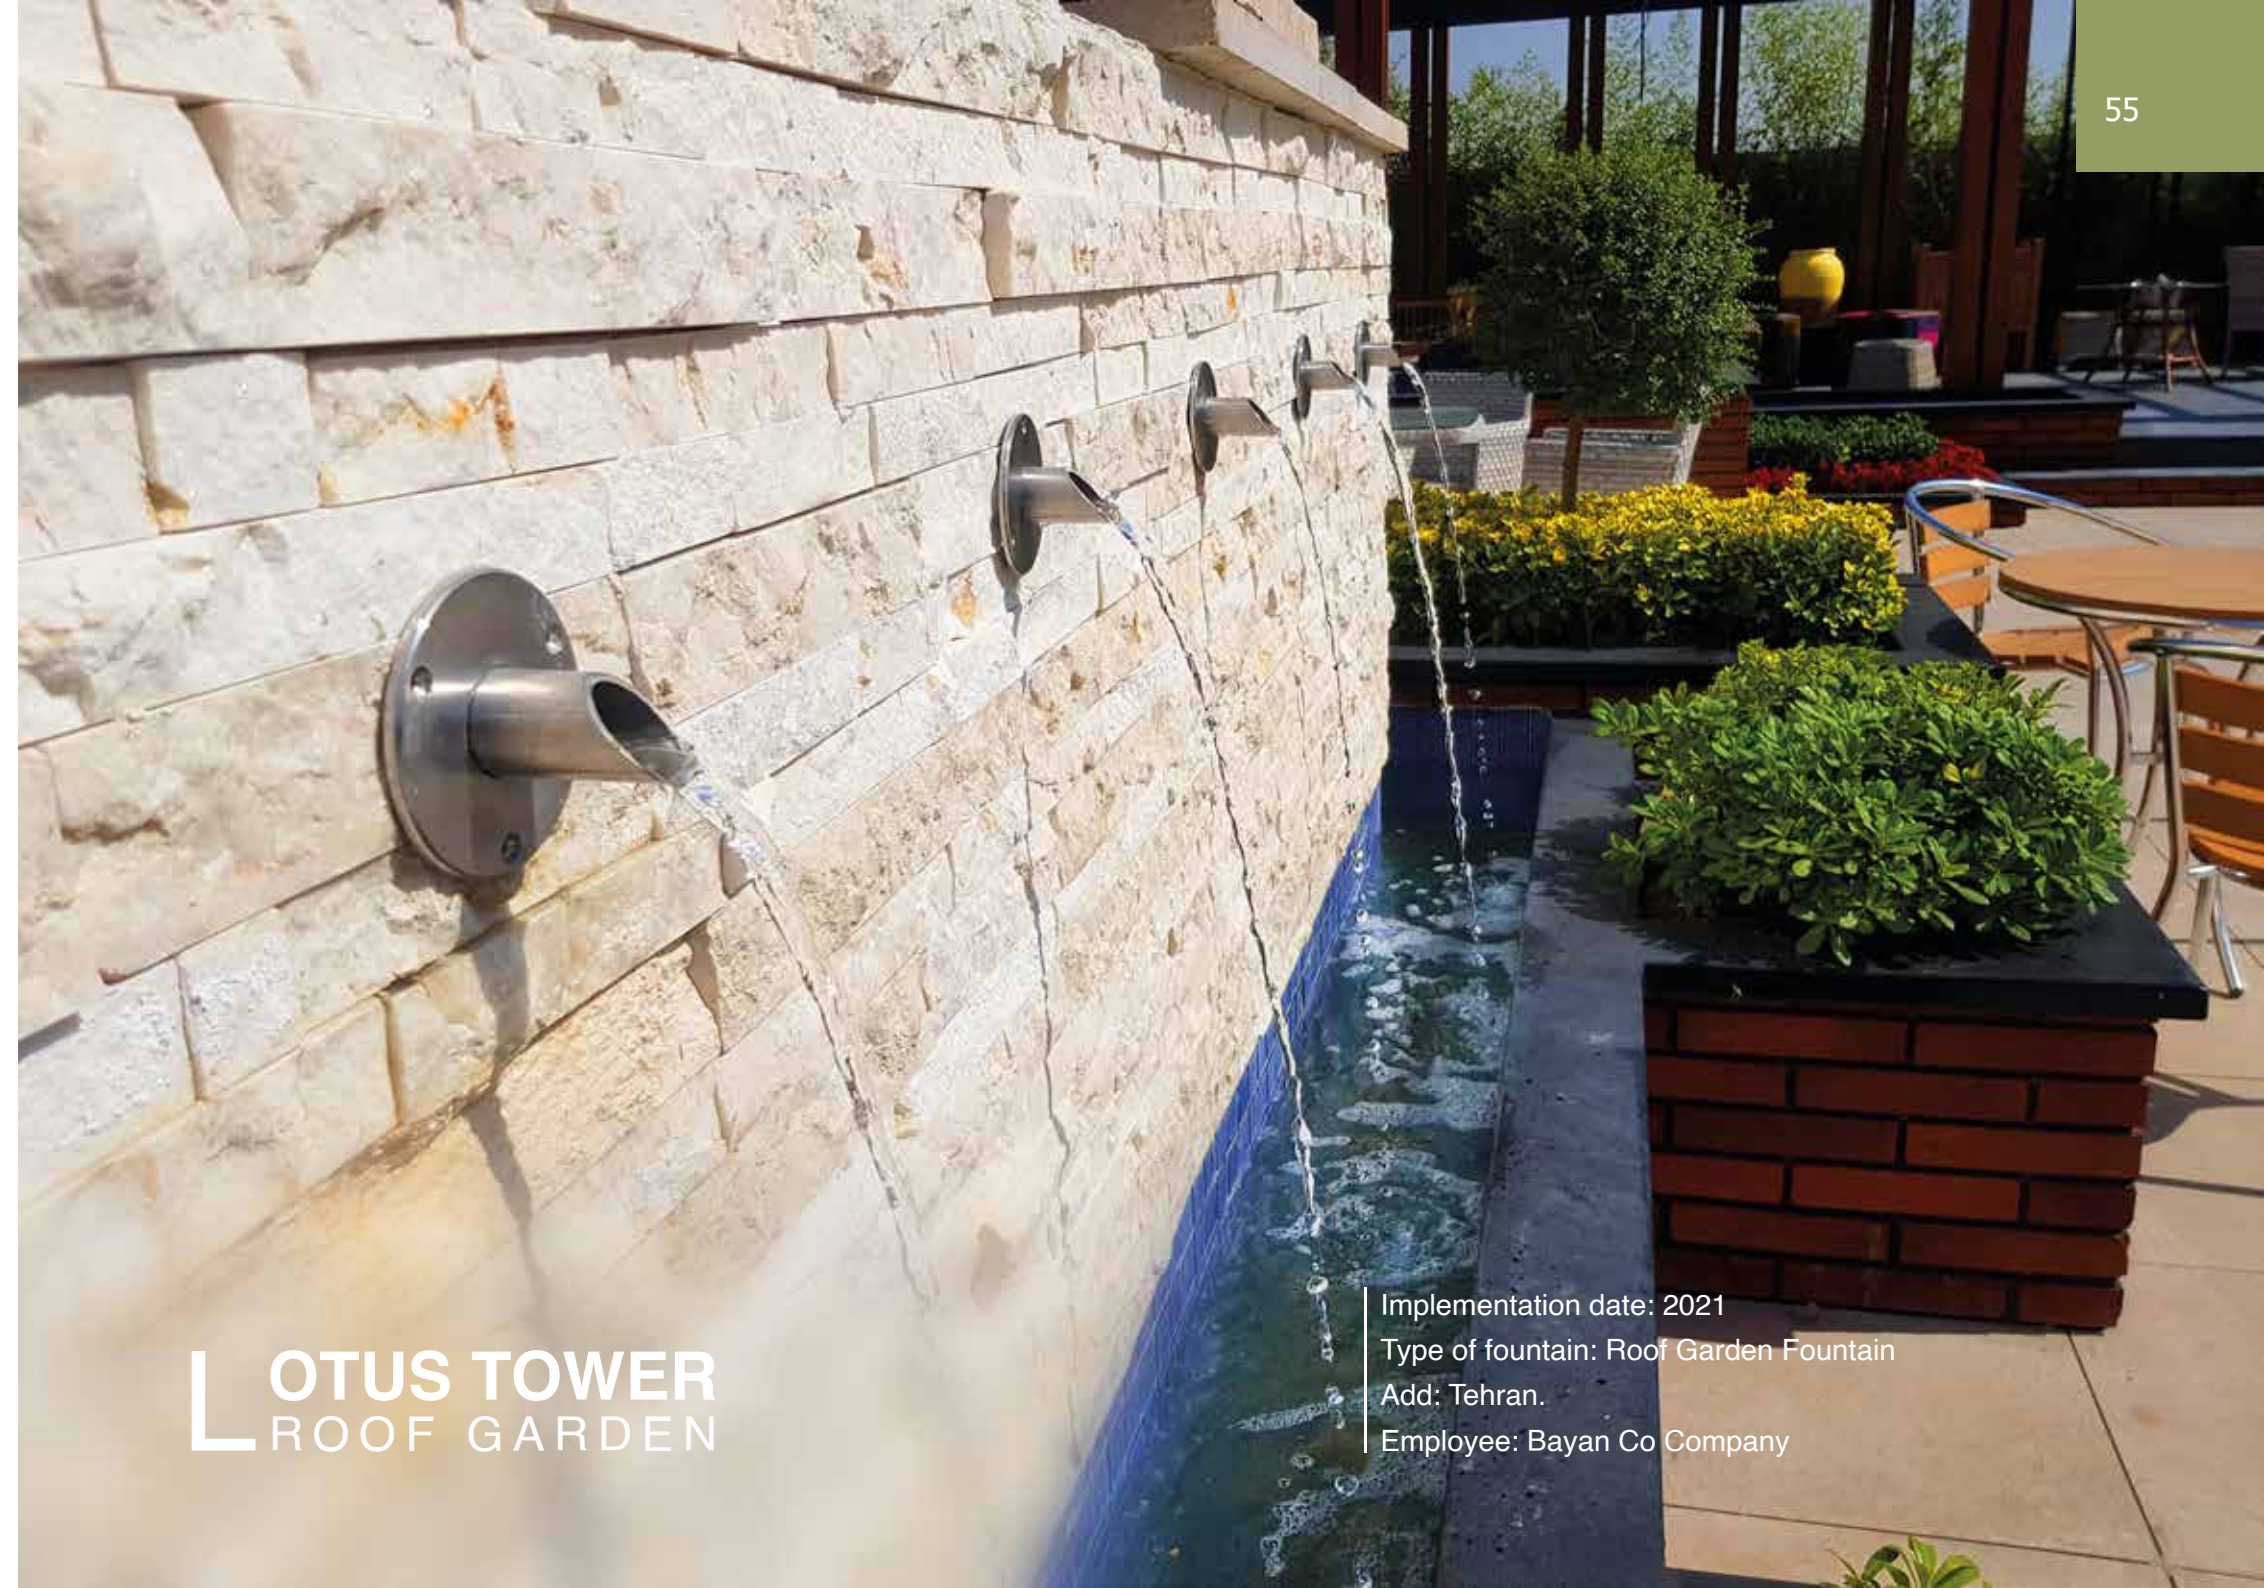

Water Way Nozzle

Waterfall Nozzle SA

Garden Pump

LOTUS TOWER
ROOF GARDEN

Implementation date: 2021
Type of fountain: Roof Garden Fountain
Add: Tehran.
Employee: Bayan Co Company

Project Equipments:

Fan Jet Nozzle

Rain Curtain Nozzle

Crown Nozzle

RSS Pump

ROSE LAND
ROOF GARDEN

Implementation date: 2021
Type of fountain: Roof Garden Fountain
Add: Esfahan.
Employee: Mr.Dooghi

Project Equipments:

Rectangle Fire Bowl

Rain Curtain Nozzle

Waterfall Nozzle SA

Glass Stand

GISHA
ROOF GARDEN

Implementation date: 2020
Type of fountain: Roof Garden Fountain
Add: Gisha, Tehran.
Employee: Mr.Noori

Project Equipments:

Foam Nozzle

Rain Curtain Nozzle

Waterfall Nozzle SA

Garden Pump

DIAMOND TOWER
GARDEN FOUNTAIN

Implementation date: 2021
Type of fountain: Garden Fountain
Add: Tehran
Employee: Diamond Tower Manager

Project Equipments:

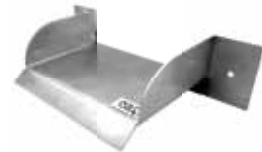

Rain Curtain Nozzle

Round Rain Curtain Nozzle

Water & Fire Bowls

Water Way Nozzle

KOOHNAMA
RESTURANT

Implementation date: 2022
Type of fountain: Decorative Fountain
Add: Darband, Tehran.
Employee: Koohnama Resturant Manager

Project Equipments:

Foam Nozzle

Neyriz Nozzle SA

Water Way Nozzle

Waterfall Nozzle SA

Water & Fire Bowls

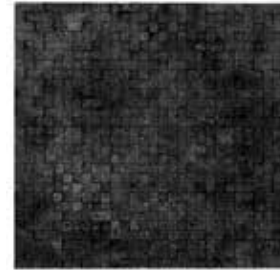

SAFA DASHT
GARDEN FOUNTAIN

Implementation date: 2022
Type of fountain: Garden Fountain
Add: Safadasht, Tehran.
Employee: Safadasht Villa Manager

Project Equipments:

Foam Nozzle

Aria Wall Tile

Wall Washer Light

Waterfall Nozzle SA

Submersible Pump SA

SANA COMERCIAL
CENTER ROOF GARDEN

Implementation date: 2022

Type of fountain: Garden Fountain - Aria Wall

Add: Niavaran, Tehran.

Employee: Sana Shopping Center Manager

Project Equipments:

Waterfall Nozzle SA

Wall Washer Light

Submersible Pump SA

SANA COMERCIAL
CENTER ROOF GARDEN

Implementation date: 2022
Type of fountain: Garden Fountain - Wet Wall
Add: Niavaran, Tehran.
Employee: Sana Shopping Center Manager

Project Equipments:

Foam Nozzle

Ring Proflat LED

Dry Deck Chamber

Dry Pump

PARAMIS TOWER ROOF GARDEN FOUNTAIN

Implementation date: 2023
Type of fountain: Roof Garden Fountain
Add: Tehran.
Employee: Paramis Tower Management

Project Equipments:

Foam Nozzle

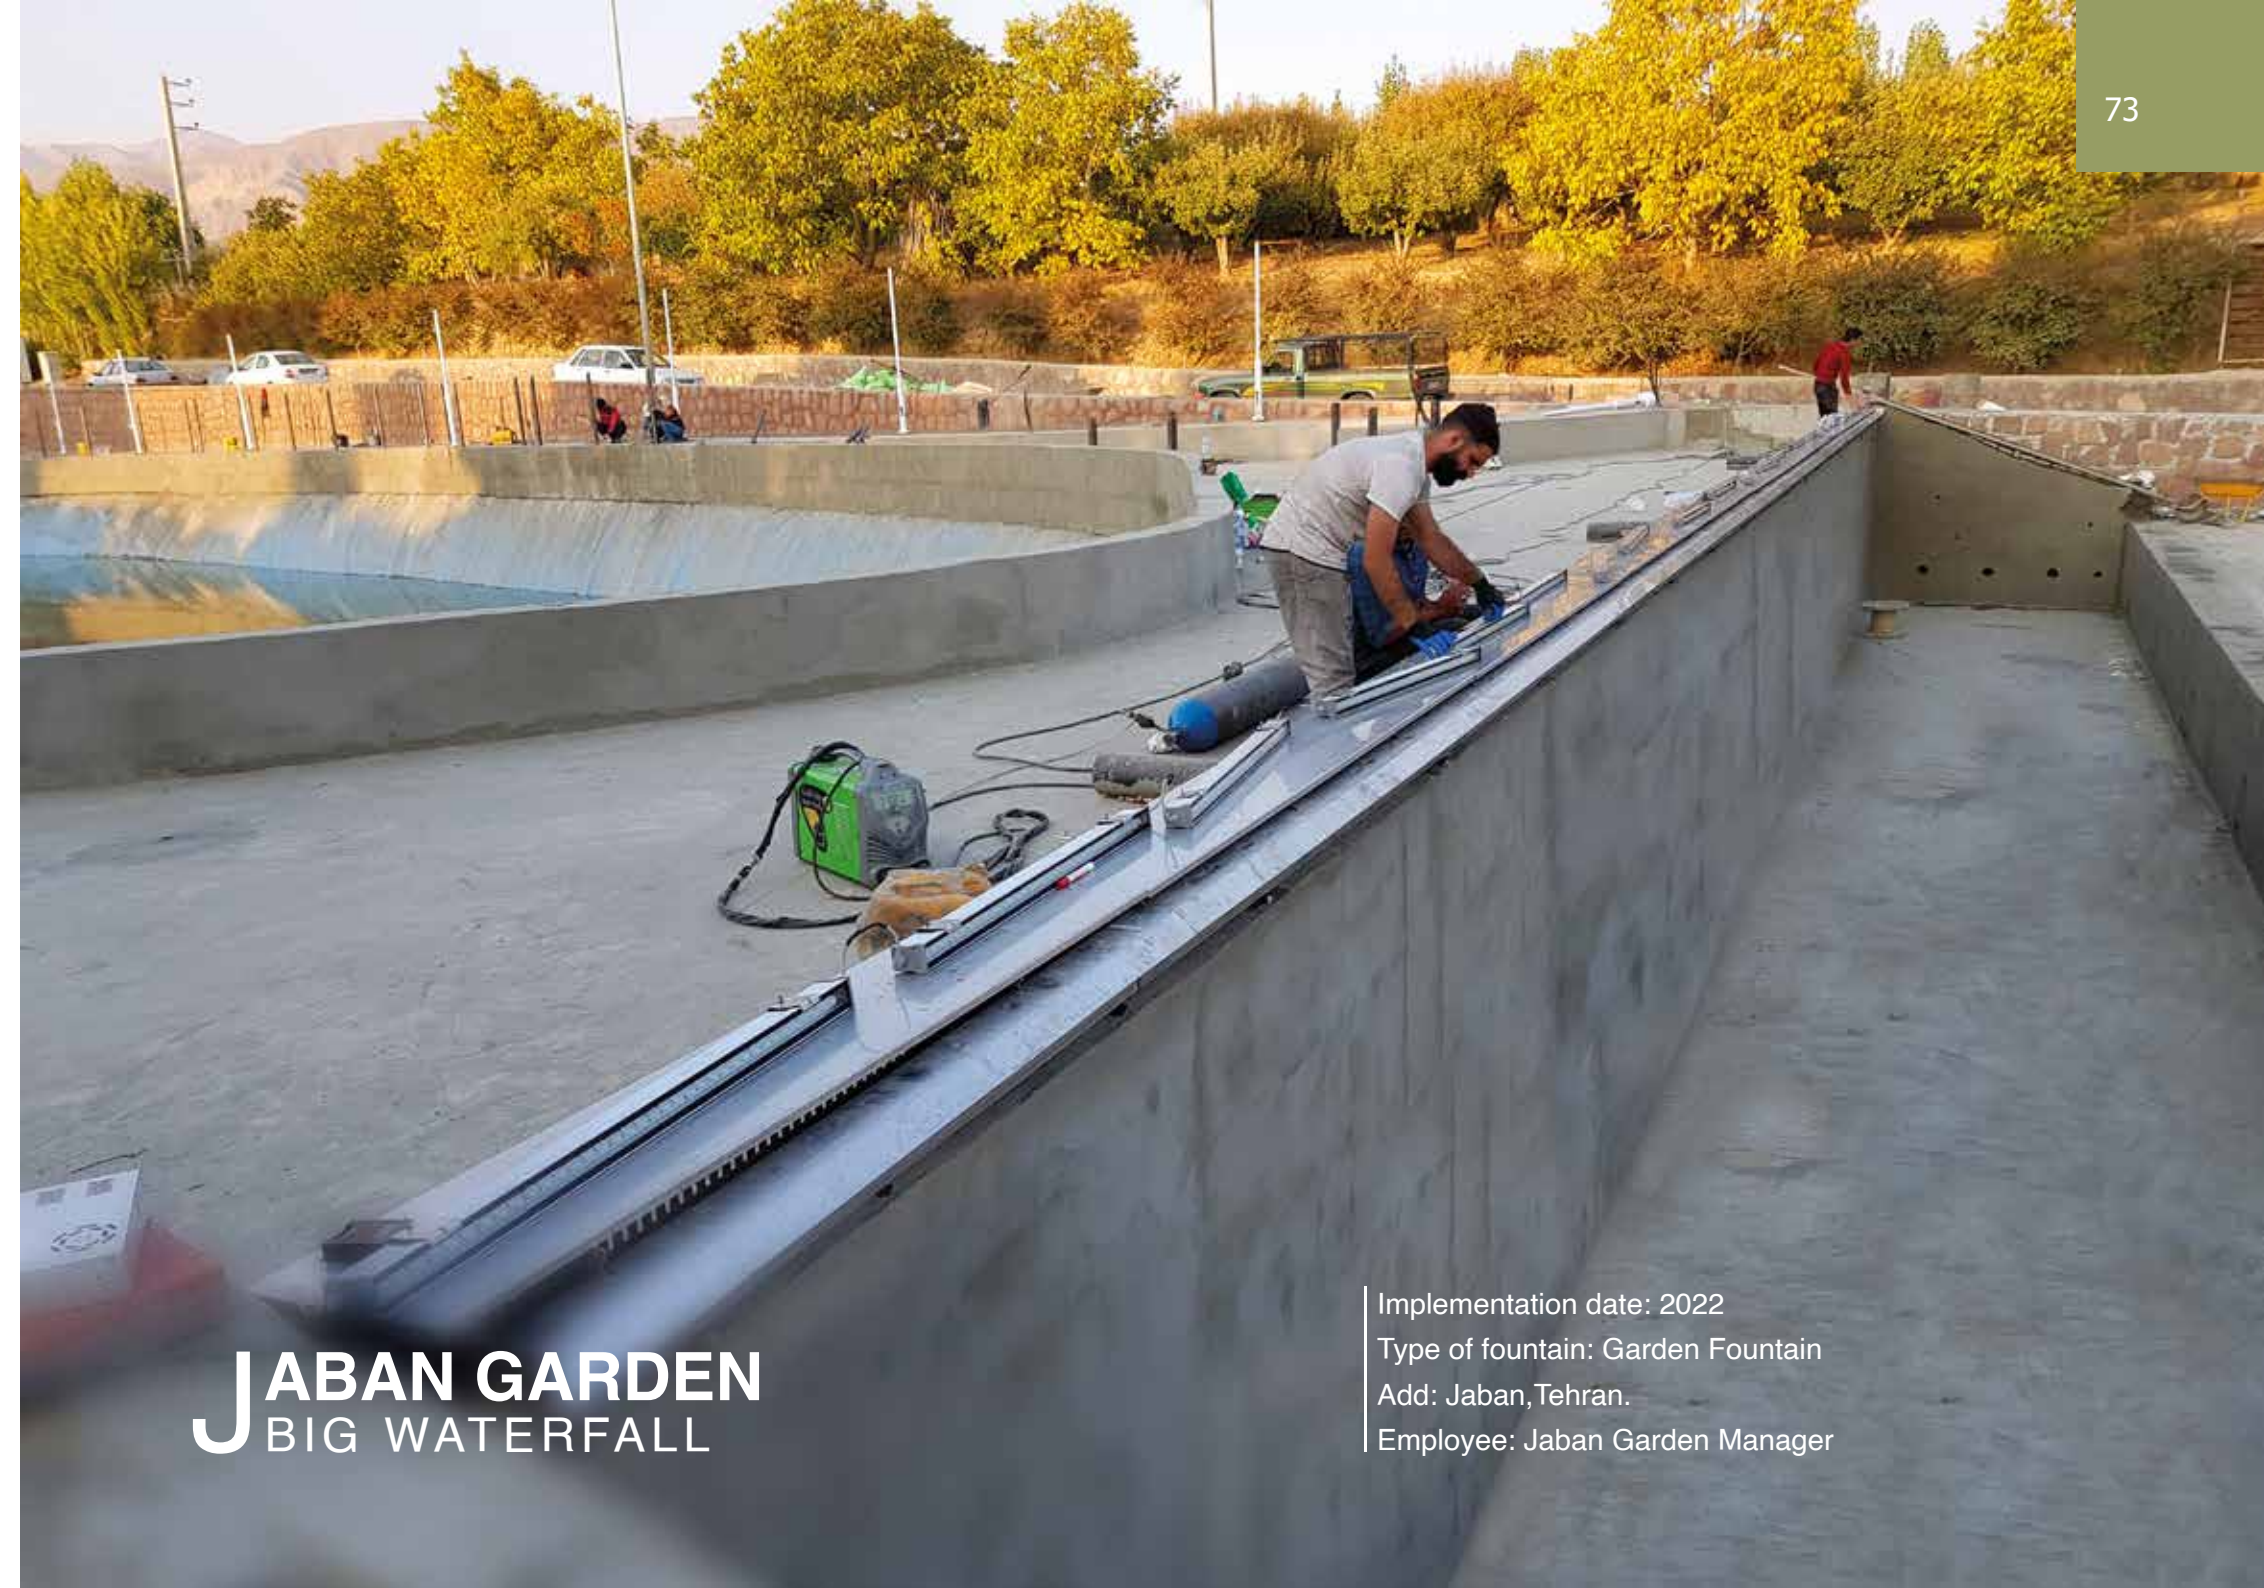

Waterfall Nozzle SA

Sphere Nozzle

Dry Pump

JABAN GARDEN BIG WATERFALL

Implementation date: 2022

Type of fountain: Garden Fountain

Add: Jaban, Tehran.

Employee: Jaban Garden Manager

PRODUCT Oriented Project

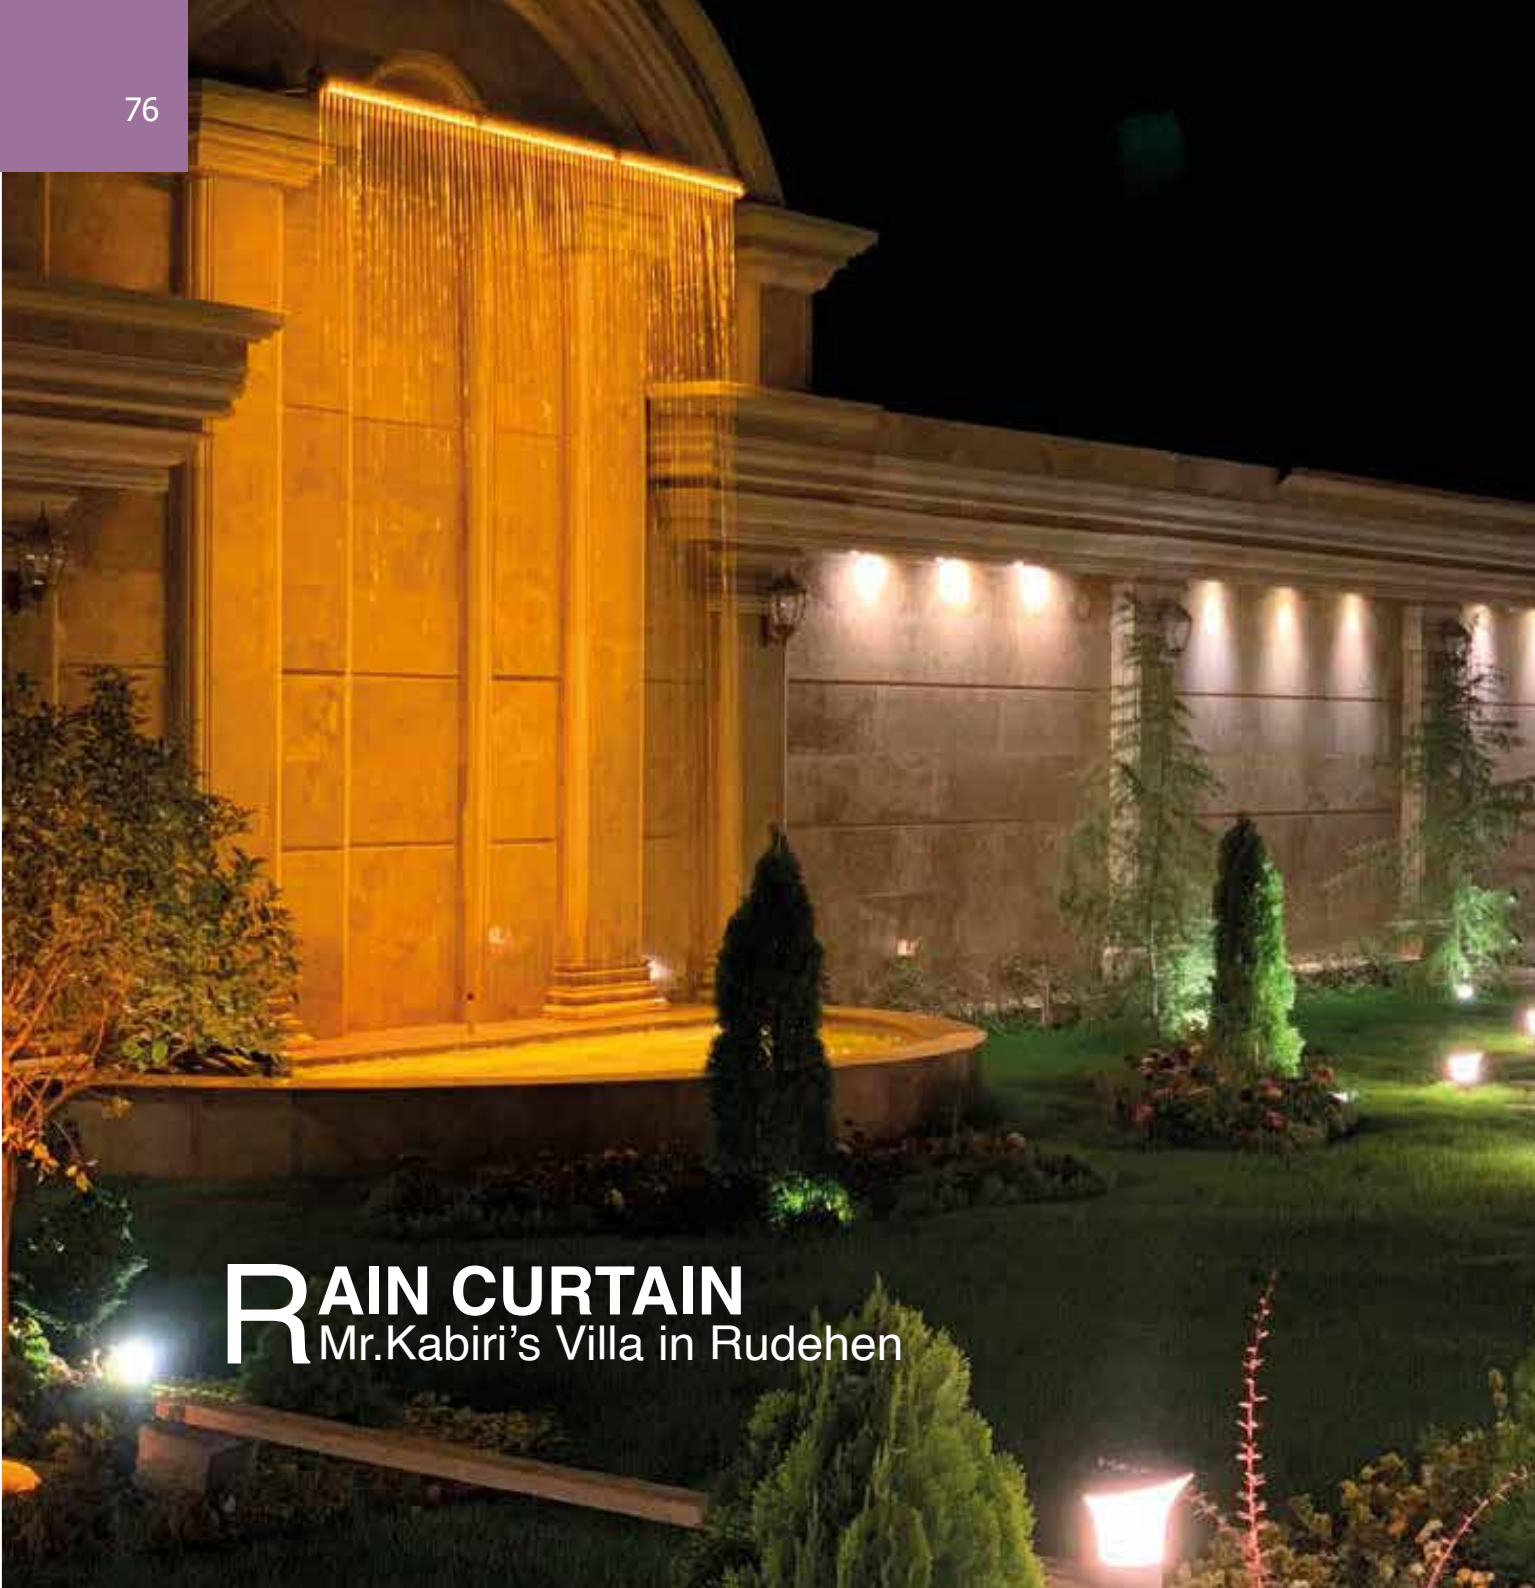

Product oriented garden and landscape projects

Garden fountain products are a group of fountain products that are used in open environments such as roof gardens, landscape and swimming pools due to their characteristics such as the sound of water and the amount of water splashing. Considering that these products may be placed in places with high humidity such as rain and snow, 304 and 316 steel should be used in the construction of these fountains so that they have high resistance to corrosion and rusty. In this section, you will get acquainted with a number of product-oriented garden projects in which one or two products of GSO company have been installed and implemented. Also, you can see many changes in the beauty of the environment by installing only one fountain nozzle.

پروژه های باغی و لنداسکیپ محصول محور

محصولات آبنما باغی به گروهی از تولیدات آبنما گفته میشود که به دلیل خصوصیات هم چون صدای آب تولیدی و میزان پاشش آب در محیطهای باز همچون روفگاردن، لنداسکیپ و استخر استفاده می شوند. همچنین با توجه به استفاده این محصولات در محیطهای باز و باغی که سبب قرار گرفتن در معرض عوامل محیطی مانند برف، باران و رطوبت می شود، باید در ساخت این آبنماها از استیل ۳۰۴ و ۳۱۶ استفاده کرد تا مقاومت بالایی در برابر خوردگی و زنگ زدگی داشته باشند. در این بخش با تعدادی از پروژه های باغی محصول محور آشنا می شوید که در آنها یک یا دو محصول از تولیدات شرکت جی، اس، او نصب و اجرا شده است و می توانید در این بخش، تغییرات زیبا و مدرن را با نصب حتی یک محصول آبنمای با کیفیت، مشاهده کنید.

RAIN CURTAIN
Mr.Kabiri's Villa in Rudehen

Rain Curtain Linear

FP.RC-Li.1L.L02-SS
 Fountain Package | Rain Curtain | Linear | Length | Material
 | Number of Lines
